

The Openreach logo is positioned in the top right corner of the page. It features the word "openreach" in a white, lowercase, sans-serif font. The letter "o" is stylized with a red horizontal bar extending to the right. The background of the entire page is a photograph of a man standing in front of the open back of a white van. The van's interior is filled with various tools, including a green toolbox, a white hard hat, and other equipment. The man is wearing a dark blue t-shirt with the "openreach" logo on the chest and a purple lanyard with a badge around his neck. The overall scene is set outdoors with trees in the background.

Openreach LN320 Agreement (Scotland)

For Road Authorities who are in, or wish to sign up to an LN320 agreement with Openreach, to adjust/replace frames and covers during resurfacing works

LN320 Sign up

Signing Up

Should you wish to sign up to the Openreach LN320 agreement, please complete the attached letter giving the commitment from your organisation to work to the Openreach specification.

[Please click here to download the Sign Up Agreement Letter](#)

All completed agreements should be emailed to ln320signup@openreach.co.uk. We will then email you a copy of the technical specification.

Any third party (including your Authority) or parties acting on behalf of the Authority are NOT allowed to enter or carry out any work on Openreach apparatus without the prior agreement of Openreach. If you do so, you are in breach of Health and Safety Policy and liable to prosecution.

Openreach apparatus must NOT be replaced with any non-standard covers. Only approved frames and covers obtained through this agreement must be used.

Works Promoters **(including your Authority) are responsible for** fully assessing the risks they place on their workforce and the general public before opening or adjusting levels of Openreach property, and ensure they always comply with the relevant Health & Safety requirements.

Carrying out the work – contacting us

Contact the National Notice Handling Centre electronically at nnhc@openreach.co.uk with LN320 in the subject field. There is a requirement in the agreement to notify us of your works as per s83/s84 of NRSWA¹, and to provide us with a schedule of completed works as detailed within the specification.

To assist us in achieving this and satisfying NRSWA s138, our National Notice Handling Centre will need information to record the works in the register. As there is no electronic version of this notice, please complete the following form with your request:-

[Please click here to download the S142 S143 notification](#)

Openreach requires 5-6 weeks' notice to the commencement of the work, to allow for site visit appointments and stores ordering.

What happens next?

- A site visit will be arranged between you (the Authority)/your contractor completing the work, and one of our Plant Protection Officers to agree what work is required.

¹ New Roads and Street Works Act (1991)

- The Plant Protection Officer will then arrange the delivery of the stores to you/your contractors
- Once the resurfacing works are completed, you **must** advise the National Notice Handling Centre via email - quoting the LN320 reference number - that the work is completed and that the notice can be closed.
- **In progress and complete photographic evidence must also be sent to; ln320digitalevidence@openreach.co.uk**

Further Notes

- The agreement does not cover prefabricated or cast joint boxes.
- **Specialist frame and covers required for block paving which are not Openreach supplied standard frame and covers are not included** in this process. The agreement does not automatically permit the placement of precinct type covers but is still a precursor requirement. For this work, please contact Openreach via our website at <http://www.ournetwork.openreach.co.uk/altering-our-network/when-you-want-our-network-moved.aspx>
- * Subsequent to arrangement, all precinct type frames and covers placed by the Authority including the frame, tray and inserted paving/material is the property of the Authority, and as such all maintenance of the frame, tray and inserted paving/material shall lie with the Authority. Only Openreach approved precinct frame and covers may be used and the chamber remains the property of Openreach. Openreach reserve the right to access the chamber at any time for maintenance, inspection, provision and repair of our equipment. For further information contact your Openreach Network Alterations Planner
- The Authority or Openreach can withdraw from the agreement at any time
- It should be noted that Openreach only permits the raising or lowering of Openreach Frames and Covers by Authorities/your contractors up to a **maximum variation of 150mm**. **Works in excess of 150mm** are classified as reconstruction and should be referred to our Alterations teams at <http://www.openreach.co.uk/orpg/home/contactus/alteringournetwork/alterationcontacts/alterationcontacts.do>

If you are not the correct recipient for this information, please forward to the correct person within your organisation.
