The above tables contains a list of Openreach's FTTP locations within the first phase of network build in rural market towns and villages up to March 2024 as part of our 3.2m Area 3 commitment. It does not show FTTP deployment related to BDUK, new sites/retro new-sites, Fibre First Cities and other smaller scale programmes or infill.

Openreach has exercised its best efforts to ensure that the contents of this tables accurately reflect its relevant FTTP build plans at the time of publication. Openreach will keep this information updated on a rolling basis, including to reflect additional locations in later phases of network build, or changes to existing plans which may become necessary due to unforeseen operational reasons (particularly where build is yet to commence).
