Attaching to Wall

- The enclosure is attached to the wall with 2 screws, instead of the 4 on the previous ONT.
- A template is provided with the unit to ensure correct screw location.
- The enclosure will fit over a double back box to allow the connectorised cable to be inserted through the back of the unit.

Cable Connections

- Connect the Openreach optical fibre to the Optical port on the ONT.
- Connect the power adapter to the POWER port and the ONT, then plug the power adapter into the power socket.
- Connect PORT1 to the communication provider’s router with a network LAN cable.

Further Information

More technical specifications and other related information can be found in the official manufacturer’s guide included in the ONT box.
